The President's propositions for special taxes on iron, steel and automobiles were received in silence save that many Republican Congressmen laughed behind their hands and whispered and nudged each other.

The greatest outburst of applaues greeted the denunciation of hyphenated Americans. From both sides of the chamber, from Republicans as strongly as from Administration came cheers and handelapping as the President said: "We should promptly make use of processes of law by which we may be purged of their corrupt distempers," and again when he declared "Such creatures of passion, disloyalty and anarchy must be crushed out."

Thursday night meeting there were more than 300 in the audience. Of course there should be 2,000. Once New York realizes that the Bible is the vehicle of saivation, that it is a vital fact and not a negligible theory, it will adopt it with the extraordinary enthusiasm which makes the New Yorker do almost everything to excess.

"In this city you overeat, you overamuse yourselves. You do everything too much except that you do not overation, disloyalty and anarchy must be crushed out."

So the Rev. Joseph W. Kemp, pastor of Calvary Baptist Church, explained to me yesterday the Sunday sermon in which he said that "the crying need of religion in this city is to put Bibles in the homes of the wealthy. Dr. Kemp came here recently from Edinburgh and

in less than two months raised the Sunday attendance of his church from thirty-four in the nave and fiftyeight in the choir to an average audience of 500 in the morning and 300 at the evening service.
